

CLICK CADDIE

USER SETUP AND INSTRUCTION GUIDE

Step 1:

Place the steel plate in-between your phone and case. If case is thicker, use adhesive to apply directly to case.

Step 2:

Ensure that your plate is centered in the back of your phone. This ensures optimal magnetic position when used with the ClickCaddie.

Step 3:

Insert the ClickCaddie from a vertical position to fully engage in the golf ball holder. Once engaged, rotate forward for the friction fit to desired viewing angle. Then click your phone onto the phone mount..
